Product Manager	[TBD]	[TBD]	[TBD]	[TBD]	[TBD]

Development Team

Role	Name	Email	Phone	Slack	Expertise
Tech Lead	[TBD]	[TBD]	[TBD]	[TBD]	Architecture, Backend
Senior Developer	[TBD]	[TBD]	[TBD]	[TBD]	Full-Stack, Database
Developer	[TBD]	[TBD]	[TBD]	[TBD]	Frontend, UI/UX
Developer	[TBD]	[TBD]	[TBD]	[TBD]	Backend, APIs

Operations & Support

Role	Name	Email	Phone	Slack	Expertise
DevOps Engineer	[TBD]	[TBD]	[TBD]	[TBD]	Infrastructure, Deployment
QA Engineer	[TBD]	[TBD]	[TBD]	[TBD]	Testing, Quality Assurance
Technical Writer	[TBD]	[TBD]	[TBD]	[TBD]	Documentation

Role Descriptions

Executive Sponsor

Responsibilities:

- Provide executive oversight and strategic direction
- Approve major decisions and budget
- Remove organizational blockers
- Communicate status to leadership

Availability: As needed for decisions
Response Time: 24 hours

Project Lead

Responsibilities:

- Overall project management and coordination
- Track progress against timeline and budget
- Manage stakeholder communications
- Conduct weekly status meetings
- Escalate issues and risks

Availability: Full-time
Response Time: 2 hours

Product Manager

Responsibilities:

- Define and prioritize features
- Gather user feedback and requirements
- Make product decisions
- Create user stories and acceptance criteria
- Conduct user acceptance testing

Availability: Full-time
Response Time: 2 hours

Tech Lead

Responsibilities:

- Technical architecture and design decisions
- Code review and quality standards
- Mentor junior developers
- Performance optimization
- Technology selection and evaluation

Availability: Full-time
Response Time: 1 hour

Senior Developer

Responsibilities:

- Implement core features
- Database design and optimization
- API development
- Code quality and testing

- Mentor junior developers

Availability: Full-time
Response Time: 1 hour

Developer (Frontend)

Responsibilities:

- Implement UI components
- Frontend feature development
- Responsive design implementation
- User experience optimization
- Frontend testing

Availability: Full-time
Response Time: 1 hour

Developer (Backend)

Responsibilities:

- API development and maintenance
- Business logic implementation
- Integration with external services
- Database queries optimization
- Backend testing

Availability: Full-time
Response Time: 1 hour

DevOps Engineer

Responsibilities:

- Infrastructure setup and maintenance
- Deployment automation
- Monitoring and alerting
- Backup and disaster recovery
- Security and compliance

Availability: Full-time
Response Time: 1 hour

QA Engineer

Responsibilities:

- Test planning and execution
- Automated testing
- Performance testing
- Security testing
- Bug tracking and reporting

Availability: Full-time
Response Time: 2 hours

Technical Writer

Responsibilities:

- Create and maintain documentation
- User guides and tutorials
- API documentation
- Troubleshooting guides
- Knowledge base management

Availability: Part-time (20 hours/week)
Response Time: 4 hours

Communication Channels

Slack Channels

Channel	Purpose	Members	Frequency
#aglc-crm-general	General project discussions	All team	Daily
#aglc-crm-dev	Development discussions	Dev team	Daily
#aglc-crm-support	Support and issues	All team	As needed
#aglc-crm-announcements	Project announcements	All team	Weekly
#aglc-crm-standups	Daily standups	Dev team	Daily

Meetings

Meeting	Frequency	Duration	Attendees	Purpose
Daily Standup	Daily	15 min	Dev team	Status updates, blockers
Weekly Planning	Weekly (Monday)	1 hour	Dev team, PM	Plan week's work
Sprint Review	Bi-weekly (Friday)	1 hour	All team	Review completed work
Stakeholder Update	Weekly (Friday)	30 min	Leadership, PM	Status report
Retrospective	Monthly	1 hour	Dev team	Process improvement
Architecture Review	As needed	1 hour	Tech lead, devs	Design decisions

Issue Escalation:

1. Report to Tech Lead or Project Lead

2. If not resolved in 2 hours, escalate to Product Manager
3. If critical, escalate to Project Lead
4. If business-critical, escalate to Executive Sponsor

Response Times:

- Critical issues: 30 minutes
- High-priority issues: 2 hours
- Medium-priority issues: 4 hours
- Low-priority issues: 1 business day

On-Call Schedule

On-Call Rotation

Primary On-Call: Tech Lead
Secondary On-Call: Senior Developer
Tertiary On-Call: DevOps Engineer

On-Call Hours: 24/7 during production incidents
Rotation: Weekly (Monday-Sunday)

On-Call Responsibilities

- Monitor production systems
- Respond to critical alerts
- Troubleshoot production issues
- Coordinate incident response
- Document incident and resolution

On-Call Contact

Emergency Contact: [TBD]
Escalation Number: [TBD]

Incident Channel: #aglc-crm-incidents

Skill Matrix

Technical Skills

Skill	Required	Team Members	Proficiency
React/TypeScript	HIGH	Dev (Frontend), Senior Dev	Expert
Node.js/Express	HIGH	Tech Lead, Senior Dev, Dev (Backend)	Expert
PostgreSQL	HIGH	Senior Dev, Tech Lead	Expert
tRPC	HIGH	Tech Lead, Dev (Backend)	Expert
AWS/Cloud	MEDIUM	DevOps, Tech Lead	Advanced
Docker/Kubernetes	MEDIUM	DevOps, Tech Lead	Advanced
Testing (Vitest)	MEDIUM	QA, All Devs	Intermediate
OpenAI/LLM	MEDIUM	Tech Lead, Senior Dev	Intermediate
Twilio/WhatsApp	LOW	Dev (Backend)	Beginner

Domain Skills

Skill	Required	Team Members	Proficiency
Legal Industry	MEDIUM	PM, Product team	Intermediate
Case Management	MEDIUM	PM, Senior Dev	Intermediate
CRM Systems	MEDIUM	PM, Tech Lead	Intermediate
AI/ML Basics	LOW	Tech Lead, Senior Dev	Beginner

Training & Development

Onboarding

New Team Member Onboarding (3 days):

Day 1:

- [ ] Welcome and orientation
- [ ] System access and credentials
- [ ] Development environment setup
- [ ] Repository access and branching strategy
- [ ] Documentation review (2 hours)

Day 2:

- [ ] Architecture walkthrough (2 hours)
- [ ] Database schema overview (1 hour)
- [ ] Code examples and patterns (2 hours)
- [ ] First code review

Day 3:

- [ ] Deploy to development environment
- [ ] Complete first task
- [ ] Team introductions
- [ ] Q&A session

Continuous Learning

Monthly Training Topics:

- Week 1: Technology updates and best practices
- Week 2: New feature deep-dive
- Week 3: Performance optimization techniques
- Week 4: Security and compliance updates

Recommended Certifications:

- AWS Solutions Architect Associate
- Kubernetes Application Developer
- OpenAI API Certification

Performance Metrics

Development Team Metrics

Metric	Target	Frequency
Code Review Turnaround	< 4 hours	Daily
Bug Fix Time	< 24 hours (critical)	As needed
Test Coverage	> 90%	Weekly
Deployment Success Rate	> 99%	Weekly
Performance Benchmarks	< 200ms API response	Weekly

Team Metrics

Metric	Target	Frequency
Sprint Velocity	40-50 story points	Weekly
On-Time Delivery	> 90%	Weekly
Team Satisfaction	> $^4/_5$	Monthly
Knowledge Sharing	1 session/month	Monthly

Contact Information Template

For New Team Members

When assigned to the project, complete this information:

```
**Name:** [Your Name]
**Email:** [Your Email]
**Phone:** [Your Phone]
**Slack:** @[Your Slack Handle]
**Role:** [Your Role]
**Expertise:** [Your Key Skills]
**Timezone:** [Your Timezone]
**Availability:** [Your Working Hours]
**Emergency Contact:** [Your Emergency Contact]
**GitHub Username:** [Your GitHub Handle]
**Time Zone:** [Your Timezone]
```

Team Agreements

Working Hours

- **Core Hours:** 9 AM - 5 PM (local timezone)
- **Flexible Hours:** Anytime between 7 AM - 7 PM (local timezone)
- **On-Call:** 24/7 during critical incidents

Communication Expectations

- Respond to Slack messages within 1 hour during working hours
- Respond to emails within 4 hours during working hours
- Attend all scheduled meetings
- Update status in project management tool daily

Code Review Standards

- All code must be reviewed by at least one other developer
- Code review turnaround: < 4 hours
- Reviewer must test the code locally
- Approval required before merging

Documentation Standards

- All features must be documented
- Code comments for complex logic
- API documentation for new endpoints
- User guides for user-facing features

Testing Standards

- All features must have unit tests
- Critical features must have integration tests
- Test coverage must be > 90%
- All tests must pass before merge

Feedback & Recognition

Monthly Recognition

- **Developer of the Month:** Recognition for exceptional contribution
- **Innovation Award:** Recognition for creative solutions
- **Teamwork Award:** Recognition for collaboration

Performance Reviews

- **Quarterly Reviews:** Informal check-ins
- **Annual Reviews:** Formal performance evaluation

- **Peer Feedback:** 360-degree feedback process

Career Development

- **Training Budget:** $2,000 per person per year
- **Conference Attendance:** 1 conference per year
- **Certification Support:** Full reimbursement for relevant certifications

---

Emergency Contacts

Critical Production Issue:

- Call: [Emergency Number]
- Slack: @on-call
- Email: oncall@aglc-crm.com

Security Incident:

- Call: [Security Team]
- Email: security@aglc-crm.com

Data Loss/Disaster:

- Call: [DevOps Lead]
- Email: devops@aglc-crm.com

Team Agreements Sign-Off

By joining the AGLC CRM team, you agree to:

- [ ] Follow all team agreements and policies
- [ ] Maintain code quality and testing standards
- [ ] Participate in code reviews and feedback
- [ ] Attend scheduled meetings

- [ ] Communicate status and blockers
- [ ] Support team members and collaborate
- [ ] Maintain confidentiality and security
- [ ] Follow company policies and procedures

Acknowledgment:

I have read and understood the team agreements and commit to following them.
